

Digital Footprint Assignment

100 points possible

Design and Presentation of Infographic

Exceeding Expectations 4 points

Combination of text and visuals makes for an understandable and visually appealing infographic. The layout maximizes the space and is clear with the placement of visuals and information. The language used is formal and edited to sound professional.

Fully Meeting 3 points

Combination of text of visuals makes for an understandable infographic. The layout is clear in the placement of its visuals and information. The language is formal and is edited to be easily understandable.

Meeting 2 points

Combination of text and visuals makes for a mostly understandable infographic. The layout makes sense with a little bit of clutter with the visuals and information. The language is mostly formal and edited with some mistakes.

Minimally Meeting 1 point

Combination of text and visuals makes for a somewhat understandable infographic. The layout has visuals and text and the clutter is somewhat distracting. The language is sometimes formal and edited but still containing lots of mistakes.

Not Yet Meeting 0 points

The Infographic is not completed or is not understandable. The layout is random and does not have a sequence. The language is informal and does not show editing.
